

Luke Wood

Full-Stack Software Engineer

Portfolio: <https://pro-developer-luke.github.io/myPortfolio/>

Profile

Full-stack software engineer with a First-Class Computer Science degree and hands-on experience designing, building and maintaining cloud-based web applications across the full stack. I work day-to-day with AWS infrastructure provisioned as Infrastructure as Code (IaC), delivering production systems trusted with sensitive real-world data, including NHS data, where security and reliability are paramount.

My recent work spans building data-aggregating search functionality that combines multiple sources into fast, optimised results, re-engineering user session and authentication flows to strengthen security, and producing system and infrastructure designs for other developers to follow when delivering new integrations. A strong team player, I communicate effectively across an international development team to keep projects running smoothly, and I am looking to bring this experience to an ambitious software engineering team.

Technical Skills

CATEGORY	TECHNOLOGIES / TOOLS
Programming Languages	TypeScript, JavaScript, C#, Java, Python, PHP
Markup & Web	HTML, CSS, Tailwind CSS, Responsive Design
Frameworks	Next.js, React, .NET
Cloud & Infrastructure	AWS, Terraform, Infrastructure as Code (IaC)
Development Tools / IDEs	Visual Studio, VS Code, Postman, Eclipse
Version Control	Git, GitHub
Databases	SQL Server, MySQL, PostgreSQL, MS Access, RDMS
Testing & QA	Manual Testing, Test Planning, Functional Testing

Experience

FULL-STACK SOFTWARE ENGINEER | November 2025 – Present

Encon Pharma

- Build, deploy and maintain live production web applications trusted with sensitive real-world data, including NHS data, with a strong focus on security and reliability.
- Designed and delivered search functionality that aggregates data from multiple sources to produce fast, optimised search results.
- Re-engineered the user session and authentication/login process end-to-end, significantly strengthening application security and improving user experience.
- Provisioned and managed cloud infrastructure on AWS using Infrastructure as Code (Terraform).
- Authored system and infrastructure design documentation for other developers to follow when building new integrations.
- Collaborated across an international development team, communicating closely to keep projects running smoothly.

Key technologies: TypeScript, Next.js, Tailwind CSS, AWS, Terraform, Postman.

FULL-STACK WEB DEVELOPER | August 2024 – Present

Freelance

- Designed and deployed websites for small businesses, using HTML, CSS, JavaScript, and PHP.
- Managed full development lifecycle including planning, client collaboration, design, testing, hosting, and deployment.
- Delivered branding assets (logos, banners, social media content) to ensure cohesive digital presence.
- Enhanced websites for usability, accessibility, and cross-platform performance.

BOOKKEEPER & TECHNICAL CONTRIBUTOR | February 2023 – September 2024

Clearwater Accounting Services Limited, Wilsden, Bradford, BD15 0DX

- Maintained financial records and supported bookkeeping with attention to accuracy and compliance.
- Liaised with clients regularly to ensure smooth data collection and adherence to GDPR regulations.
- Designed and deployed company website independently.

Education

October 2023 – June 2025

University Centre Leeds, LS3 1AA

- Qualification: BSc (Hons) Degree
- Grade: First Class

September 2021 – June 2022

Keighley College, BD21 4HQ

- Qualification: BTEC National Diploma in Games Design and Development (Equivalent to 2 A Levels)
- Grade: Distinction

September 2020 – June 2021

Keighley College, BD21 4HQ

- Qualification: BTEC Extended National Certificate in Digital & IT (Equivalent to 1 A Level)
- Grade: Merit
